SUMMARY

Junior Web Developer with strong knowledge of HTML, CSS, WordPress, JavaScript, PHP, MYSQL, and Bootstrap. Passionate about creating engaging and user-friendly websites. Seeking an opportunity to apply my skills as a Junior Web Developer to create innovative and engaging websites for users.

EXPERIENCE

Front End Web Developer Intern

Bateriku Sdn Bhd

November 2022 - February 2023, Shah Alam, Selangor

- Developed, tested, and maintained the Bateriku.com website using WordPress Elementor, enabling the creation of a centralized online platform for each branch of the company.
- Developed Front-end view of BattMen dashboard used to collect customers data to conduct Road Side Assistance(RSA) using HTML,CSS, Bootstrap and JavaScript.
- Collaborated with my teammate to implement a mobile view update for the existing system to enhance the system's user experience on smartphones and tablets.

PROJECTS

BattMen Dashboard

Bateriku Sdn Bhd • February 2023 - February 2023

- Developed the front-end view of the system using HTML, CSS, JavaScript and Bootstrap.
- Collaborated with UI/UX Designer in transforming User Story into User Flow Diagram.

Bateriku.com

Bateriku Sdn Bhd • November 2022 - January 2023

- Research the required tools to develop Bateriku.com based on system requirements.
- Developed the website from top to bottom using WordPress Elementor and CSS.
- Test and maintain the website in the duration of the internship.

Online Queueing Management System

Final Year Project • April 2022 - July 2022

- Developed Online Queueing Management System with customer and admin sides.
- Customer side: Enabled users to obtain queues and view current queue numbers online.
- Admin side: Created a dashboard for admins to call queue numbers and track customer choice of service statistics.
- Implemented login functionality for admins to access the dashboard.
